

**Presentation Brothers College**  
MARDYKE, CORK

## Strategic Development Plan

Rationale: The school was built in 1985 for 500 pupils. With 2018 fast approaching the Board of Management believes now is the time to develop the campus to match the successes of our school and our community. The school now has over 700 pupils and has had developments to reflect this growth in terms of new classrooms. The Board now see that development of all other facilities as vital to continue the success of the school into the future.

The Board of Management are inviting submissions from all of the school stakeholders to give their ideas, opinions, skills and knowledge to the Strategic Development Plan. The Board will compile this plan and put it into action to develop new and existing school facilities to allow for the best possible school environment so the pupils now and into the future will benefit from a Pres education on a modern campus with the best facilities that will allow excellence to develop inside and outside the classroom.

The Board will be looking for the Pres community to come together to make this a success.

Submissions from the school community will have to be received by the Board by/on specific dates which are as follows:

- Staff submissions by 22<sup>nd</sup> December 2017
- Parent/Guardian submissions by 9<sup>th</sup> February 2018
- Student submissions by 28<sup>th</sup> February
- PPU submissions by 28<sup>th</sup> February

From these submissions an outline plan will be developed by the Board of Management.

Submission(s) by email to [info@pbc-cork.ie](mailto:info@pbc-cork.ie)
